

Policy Document on Green Campus

World Environment Day is celebrated on June 5th to protect, preserve, and pass on natural resources to the next generation

Ozone day is celebrated on September 16 every year to bring awareness among the students on preservation of precious Ozone layer to save planet from green house effect.

Soil day is celebrated every year on December 5th to throw light on importance of soil in food production and maintenance of fertility, preservation of beneficial microorganisms for better yield

As a part of institutional policy “preserve protect and pass on natural resources” to the next generation, the institution takes up energy saving initiatives every year. The institution is strongly believes that “power saved is power generated” so it observes some important days to promote this view. It celebrates world water day to throw light on the importance of precious natural resource, water and need to stop its wastage and put it in right usage. To make students understand the severity of water crisis currently world faces seminars are organised in the digital class rooms and relevant video clips are shown and methods of recycling and using waste water for noncore purposes such as plantation etc is emphasized and slogans like “be cautious water is precious” are displayed in and around the town. As a part of power saving policy various power saving measures and methods are adopted by the institution for example in the month April and power holiday is observed as there will be heavy power consumption during these months. Misuse of power is stopped by switching off power devices whenever not used. Reduce Reuse and Recycle is the institutional policy towards prevention of plastic usage. No plastic, No havoc Go green No polythene, Use Garbage bin Keep the Campus Clean, A stitch in time saves nine A soak pit in time undermines water drain etc are displayed in the campus to bring awareness on curtailing plastic usage replacing with biodegradable material, Water conservation and eco-friendly campus maintenance.

World Environment Day

Ozone day on 16th September

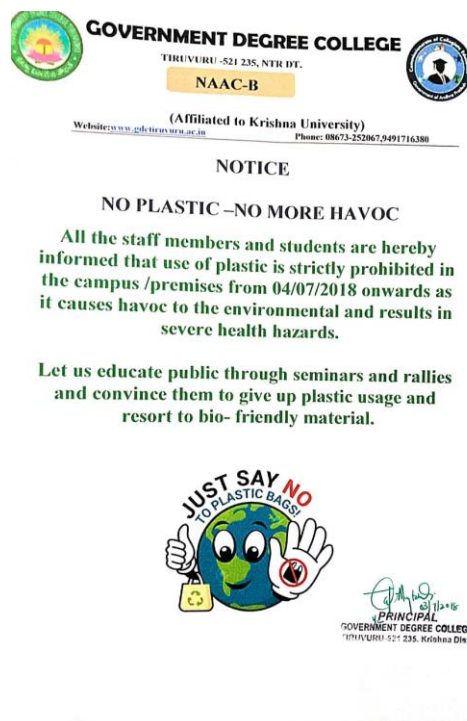

Soilday is celebrated on 5th December 2023 by department of Chemistry. On the day soil tests are done by 22 BZC, 8 ATZC students to analyze the different soils.

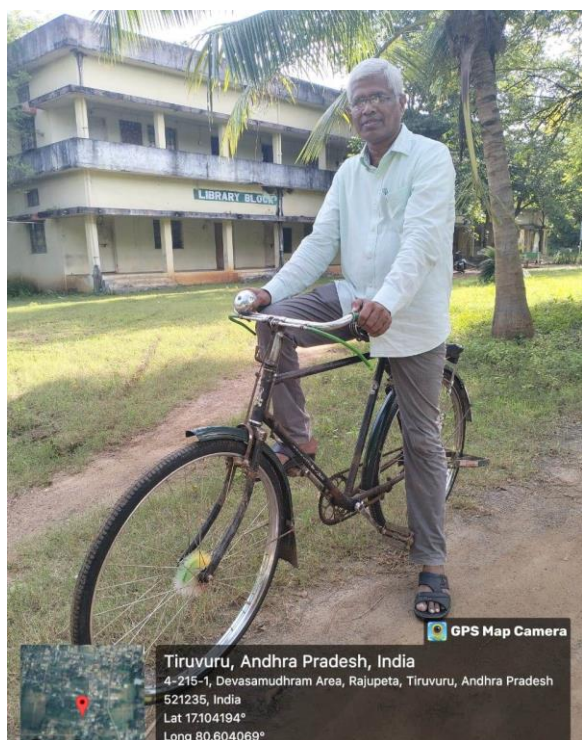

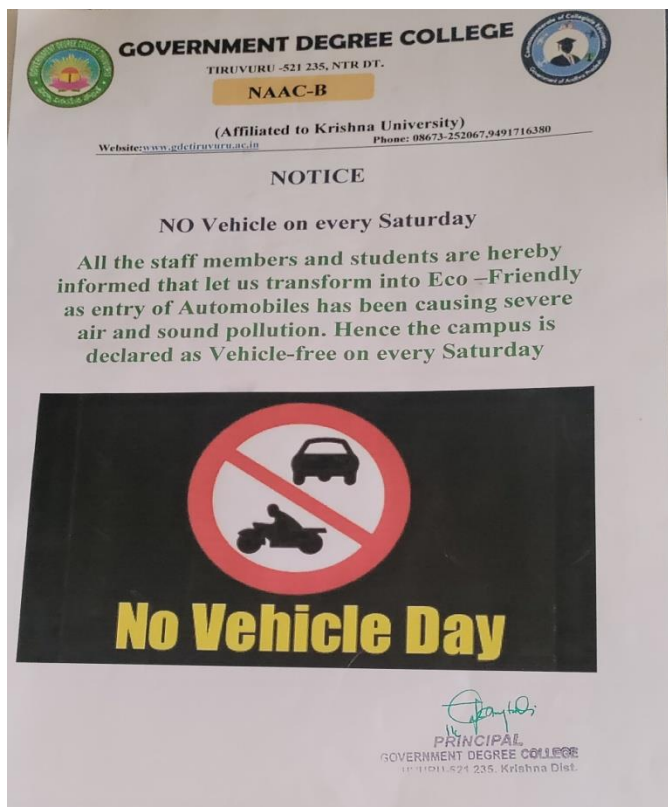

Awareness on Water Conservation

Ban on the use of Plastic

No Vehicle day is observed on Saturday to reduce air and sound pollution & Eco friendly vehicles are used

Sri M. Prasad Rao,
Lecturer in chemistry
uses

Eco-friendly vehicle and
his example is followed
the students

B.V.S. Narasimharao

And Sk. Shabana
